TC 7050N Specifications

The **GBR Tecnau TC 7050N** high performance pinless cutter is designed for finishing on demand applications. The TC 7050N is generally integrated in complex systems and lines like laser printers, bookmaking systems, and high performance inserters because of its high reliability and durability.

The vertical blade cartridge and side/center trimming cartridges are interchangeable at operator level making it the most efficient and productive cutter available.

The Tecnau Pinless Cutter is assembled with rigid metallic structures and high precision components that guarantee long life and easy maintenance.
